KENTUCKY always did hold cards. What with Governors and Legislatures and Capitals in pairs, she is likely to have a full hand.

A DISPATCH from Atlanta, Ga., says HOKK SMITH, who was Secretary of the Interior in GROVER CLEVELAND'S Cabinet, prints an editorial in his paper saying that GORBEL is responsible for the situation which resulted in his being shot.

THOSE Gobelites who are advising their friends to stay away from Frankfort are doing the proper thing. There are enough there already—lawyers and laymen of both parties—to adjust matters, and it is confidently hoped that some amicable procedure may be agreed upon. A crowd of hot-headed and irresponsible visitors would only intensify the excitement and possibly provoke further bloodshed. THE LEADER'S advice to all—Republicans and Democrats as well—is to stay away from Frankfort, keep your head cool and your feet warm, attend to your business and quit "chewing the rag."

EX-GOVERNOR ALTHOFF, the Illinois High Priest of Bryanism, is more outspoken than his chief on the question of paper money, for he says plainly that both "gold and silver will pass out of use as money and be supplanted by a philosophic or rational circulating medium and measure of value." Mr. BRYAN has never yet been committed to an expression in favor of unlimited greenbacks, but it is not certain that he and many other devotees of "Coin" HARVEY do hold similar views to Governor ALTHOFF, although they are no so implicit as to make the public at this time. The step from the public to the extreme Bryanites to that occupied by Mr. ALTHOFF, namely, that of absolute fiat money, is not a long or illogical one.

The anti-Imperialists propose to go before the workmen of America with the proclamation that with the rendition of the Philippines the United States will be overrun with cheap labor which will pauperize the labor of the country. Such statements will hardly bear the light of scrutiny when it is known that the Filipinos could not be induced in any number to leave their tropical native country for a foreign cold and alien one. Attention might also be called to the fact that England, which supports a far greater proportion of laboring and factory hands in the United States, has for years had close relationship with the cheapest labor of the Orient—that of India—and yet no pauper Indian laborers are found in the factories of Great Britain.

The anti-Imperialist propaganda plainly states that it will attempt to catch the labor vote by showing that with the occupation of the Philippines the Chinese Exclusion Act would be evaded and this country would be flooded with pauper labor. We could not, they say, refuse admission to people from those islands, and that being the case they would be used as a gateway for the entrance into America of all the Oriental hordes, to exclude which the Chinese Exclusion Law was enacted. There does not seem to be any great similarity in appearance between Filipinos and Chinese, but even granting there is, and that it is impossible to police the islands to keep out these despotic people, the United States, there are various other methods by which undesirable immigrants can be excluded from this country. American statesmen, upon arriving bridges, have heretofore always devised some manner of crossing them, and when this difficulty arises, if it ever does, it will be provided for easily and effectually, unless Democrats should happen to be in power.

BOLD ROBBERY.

An Aberdeen Man Held Up in Cincinnati Thursday Night.

Samuel Marvin of Aberdeen, employed on the steamer Gate City, reported a bold robbery to the Cincinnati police Thursday night. Marvin was on his way up town, the boat having tied up at the landing because of the heavy ice in the river. As he reached Sycamore street three colored men stepped out of a hallway and took hold of him. Marvin drew a pistol and attempted to shoot, but the cartridge failed to explode. Before he could try again the men overpowered him and took his revolver and \$10. They then knocked him down and ran away. Marvin had \$25 in an inner pocket which was overlooked by the highwaymen.

"It is a surprising fact," says Prof. Houston, "that in his travels in all parts of the world for the last ten years, I have not seen people having Green's August Flower than any other remedy for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and sailors, or for persons finding other positions, where breakfast and general bad feelings from irregular habits exist, that Green's August Flower is a great remedy. It does not injure the system by frequent use, and is excellent for your stomach and indigestion." Sample bottles free at J. C. New's Dispensary, sold by all druggists in all civilized countries.

THE BUYERS' GUIDE.

ATTENTION, Tobacco Growers!

It is a fact that a Tobacco Transplanter will pay for itself in one year on four and one-quarter acres of tobacco.

Tobacco Growers.....

OF THE White Burley District!

Who have experimented with both hand and machine planting are agreed upon this point. REMEMBER that when set by hand the tobacco plant stands still about three days, then it goes backwards about two weeks and then it begins to thrive and grow. The weather is seasonal. When set out by a good transplanting machine the tobacco plant thrives and grows from the very moment it is set out, because a large furrow is made into which is dumped a quart of water around the roots of the plant and then dry dirt is gathered up and pressed around the stalk. This prevents ground baking and withering plants. They thrive and grow from the moment they enter the ground—gives you a good stand and an early crop. Prepare ground properly, set your crop with a good transplanting machine and you need fear no frost, for your crop will be earlier than the earliest thrives. Tobacco Growers of the White Burley District who have experimented with different kinds of transplanting machines have all agreed that

Nagley is the Best Transplanter Made

I have fifty-seven (57) written signed testimonials from farmers stating that such is the case. I ask you as an especial favor to call at our store and examine this wonderful machine and read these fifty-seven (57) testimonials. Here is one of them from a man that you all know—a big tobacco raiser and one who always gets the top of the market.

"This is to certify that I have seen and worked the Nagley, Tiger and Nagley Transplanters, and can cheerfully say that the Nagley will work better and handle easier in all kinds and conditions of ground than either of the others. The Nagley will turn in use less loss of space than any other machine made. The Nagley on the Nagley is perfect, always works, never gets out of fix. The plants thrive from the moment they are set, the best stand of plants I ever saw. My neighbors are all will over the work of the Nagley. I would not trade my Nagley for a barnyard full of Tiger and Henrich machines. Signed, THOS. KUEHL."

This is only a sample of what they all say and read the rest of our testimonials. THE PRICE FIGHTER, JOHN I. WINTER, has put them within the reach of even the poorest tenant. \$6 will buy the best Tobacco Seed made if you go to the right place to buy it. Tobacco growers, investigate this matter, visit all dealers in all towns and when you learn that their Trust Combination price is \$6 the best of the grain does not offer the accuracy of the Black Hawk. John I. Winter, The Price Fighter, of sound mind, do hereby obligate myself to sell you the Best Tobacco Transplanter on earth for \$6 cash or bankable note. All I ask is a chance to show you what I have.

THE PRIDE OF THE WORLD IS The Black Hawk!

The Vulcan Chilled Plow is absolutely the strongest, best-made, easiest-to-handle and prettiest plowing plow that you ever had your hands on. That is a rather strong statement but I mean just what I say. You stop your wagon in front of my store. I will put a Vulcan plow on it you put the plow in the furrow, if you agree with me it is your plow; if you don't find it to be the best plow that I ever saw, bring it back and I will refund every cent of your money. Is that fair? I think so.

The Black Hawk Corn Planter!

Touched the heart of Mason county farmers last year? They will all want Black Hawk planters because we sell the best grade only and sell it cheaper than other dealers sell cheap stuff. Try me and see how many dollars I will save you. Call and examine the new Cultivator THE PIVOT AXLE! the only Ridding Plow made that you can use for satisfactory plowing and ridding.

Remember, please, that we sell everything in the way of MACHINERY, FARM IMPLEMENTS and FURNITURE!

Less than anyone else. The only favor that we ask is that you come and see how many dollars we can save you.

Furniture!.....

It is a positive, absolute fact, long since conceded by all, that we carry the biggest and best stock of furniture in this city. It is true, but we sell it cheaper than anyone else on earth. To say that our prices upon Furniture is the lowest price on earth is a broad and sweeping statement, but we stand prepared to back it up. We never indulge in any advertising dodge, catches or baits. We have a price lower than anyone else on earth; we ask you that price and stand pat.

One Price to.....

.....All for Cash!

And that the lowest on earth. I mean just exactly what I say. Try me and see how many round, plump, luscious dollars I can save you. Look at these prices:

A Nice Oak Safe for.....\$ 2.75
A Fine Oak Double Case Seat Chairs.....\$ 1.50
A Nice Oak Dresser for.....5.00
A Nice Oak Bedstead for.....12.00
A Large Oak Bedroom Set for.....12.00

And everything else made out of wood, iron or steel for less money than anyone else.

In conclusion, I will say that I have been in my midst two years and that I have fulfilled every promise made to you. I promised to save you thousands of dollars by selling you everything at a cut price. Have I not done so? They told you that I would remain only a few months. They told you that no man could exist and sell goods as low as I did. I told you I could if I could sell it. I have a price lower than anyone else on earth; we ask you that price and stand pat.

CONFLICTING ARMS

One of the Possibilities of the Situation Now Existing at Frankfort.

BEGINNING OF THE CRISIS IS AT HAND

First Conflict Between the Executive and Judiciary Powers of the State Has Occurred.

Goebel Is Better, and His Physicians Now Have Some Hope of His Recovery—The Legislature Holds a Secret Session.

Frankfort, Ky., Feb. 3.—The first clash between the executive and judiciary powers of the state has occurred, and a still greater clash is imminent, and beyond lies a sea with skies so lowering, and so stormy an aspect that no politician of either party can predict where it will carry the Kentucky ship of state. There is the chance that things will, as Congressmen June Gayle expresses it, "drift around all right," but there are other chances also, and if things are to "drift around all right" they must strike a counter current and strike it soon. There can no longer be any concealment of the fact that in this state are bordering upon conflict in arms and the beginning of the crisis is at hand. It may be that political difficulties will be settled by the court, but the hearts of men are hot in Kentucky now and legal process may provide a remedy too dilatory to please a few of the more impatient and it is in the power of these to create

TOWARD TUGELA.

The Boer Forces Are Withdrawing From Ladysmith Going to Meet Buller's Army.

A COLLISION MAY HAVE TAKEN PLACE

It is Supposed That the British Have Made a Fresh Attack Upon the Enemy's Lines.

The British War Office Continues to Reveal Nothing of What Has Happened in Natal—Few Dispatches From the Front.

London, Feb. 3.—Heliograms from Ladysmith three days ago say that the Boer investment lines then were thinning and that the besiegers were moving in force toward the Tugela, indicating that a collision was expected there. This intelligence bears out the opinion of Gen. Buller purposes a fresh attack. The war office continues to reveal nothing of what has happened in Natal. Without exception the military critics regard with dismay the prospect of a renewal of the assaults upon Gen. Buller has been heavily reinforced; and there is nothing to indicate that this is the case. Lord Kitchener has been traveling from army to army in northern Cape Colony, and Gen. French, by instruction, is now in Cape Town consulting with Lord Roberts. Large engineering constructions are proceeding at Modder river, suggesting that Lord Methuen's camp has been selected as the base from which to invade the Free State. The Boers are building forms and warehouses are being built, and a permanent railway bridge is well advanced. German strategists assert that the topography of the country would make invasion easier from Kimberley and the district northward than from the more rugged region of the Orange or Colerburg. Therefore they infer that the combined British forces will overwhelm the Boers at Magersfontein and first relieve Kimberley as an incident of the invasion. "Gen. Buller's retreat," says the Cape Town correspondent of the Standard, "has resulted in a recrudescence of treasonable talk here."

NO FEDERAL INTERFERENCE.

A Kentucky Delegation Called on President McKinley Friday to Protest Against It.

THE COMMONWEALTH.

GOEBEL'S ASSAILANT.

A Man Arrested Who May Know Something About the Attempted Assassination.

Washington, Feb. 3.—A Kentucky delegation consisting of Senator-elect Blackburn, Representatives Rhea, Smith, Allen and Gilbert, and ex-Representative Thompson, called on President McKinley Friday to protest against any federal interference in that state. Senator Lindsay was also there, but did not come with the other gentlemen. The Kentuckians said that federal interference in Kentucky would be sure to result in serious trouble. The first movement of troops would cause an uprising that could not be easily quelled. They expressed the opinion that the difficulties would be adjusted without further violence if the people of Kentucky were allowed to settle the matter themselves. After leaving the white house Senator Lindsay telegraphed his friends in Kentucky, saying there would be no interference in Kentucky. Federal authorities think there is no justification for it. Washington, Feb. 3.—After the Vermont meeting the following statement was made: "The president has decided that no case has yet arisen to justify the matter of the Kentucky national government in Kentucky, and has so informed the governor." Some significance may attach to the use of the word "governor" in this statement, inasmuch as the reply was directed to Taylor.

THE COMMONWEALTH.

GOEBEL'S ASSAILANT.

A Man Arrested Who May Know Something About the Attempted Assassination.

Frankfort, Ky., Feb. 3.—It looks as if it is but a matter of time until the whole country is so assuaged by Goebel will be brought out and every person implicated in the cowardly deed will be known. Some of the most prominent detectives in the country have been here since Wednesday working on the case, and they efforts have not been in vain. A supposed agent of the conspirators approached a detective and made overtures to him providing that in case a Missouri state's evidence he would be protected. The detectives promised that no harm would befall any one who would turn state's evidence and every one assisting in bringing the culprits to justice would be rewarded. The would-be agent asked so many strange questions that after the interview came to a close he was shadowed several hours, and was placed under arrest. The detectives and put in the "sweat" box. He has told some astounding tales about the attempted assassination, and implicates several persons connected to the crime. The offer of a fortune as a reward has brought many more detectives to the city. All who have talked to the police seem to be of the opinion that he knows a great deal more about the crime, as he has given them several clues, which detectives were set to work immediately to follow. Several of the detectives are said to have come in with the soldiers Tuesday morning, and on Wednesday morning, and are parading in the garb of a soldier. They are members of the state guard to all appearances, and stand in front of the barracks of the soldiers, but they manage to keep their colleagues on the outside posted as to what is going on at the inside. One of the leading detectives said that everything was working splendidly, and that they expected within the next ten days or two weeks to have all the parties of the conspiracy before the public, and all the participants behind the bars.

FOUND HIS LOST CHILD.

Meeting of a Mother and Her Twelve-Year-Old Daughter After Eighteen Years of Separation.

London Depot, Ky., Feb. 3.—Mrs. Mary Harris arrived here from Birmingham, Ala., on Monday, and was met by her daughter, who says her name is Stella Green, who was kidnapped eight years ago at her Alabama home. The meeting between them was attended with tears of joy.

Mrs. Harris was the divorced wife of a man whose name she would not reveal from her daughter. She subsequently married Harris. The court had allowed her the custody of the daughter, which she had kidnapped. It is alleged was abandoned in the mountain state of Kentucky. She sees in the child a resemblance to the kidnapped infant.

Kentuckians Assassinated.

Middlesboro, Ky., Feb. 3.—A speech from Hagan, near here, states that Hon. William S. Wright, a prominent democrat, was shot and a member of the Kentucky legislature in 1870, was assassinated on Boone's fork of the Kentucky river. Five shots were fired from a distance of about 100 yards. He was killed. Boone's fork is very remote from Middlesboro, and it is impossible to get particulars.

Legislature Very Ill.

Richmond, Ky., Feb. 3.—The condition of W. H. Harris, the republican member of the legislature from this county, who returned from Frankfort Wednesday night in an unbecoming condition, is regarded as serious by his friends, who fear that he will not live through the session. Mr. Harris is the oldest member of the lower house.

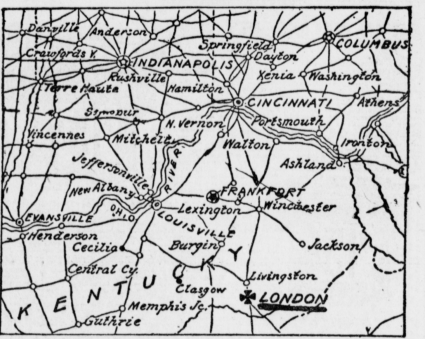

Kentucky Democrats Endorsed.

Jackson, Miss., Feb. 3.—At the session of the lower house a resolution was unanimously adopted endorsing the course pursued by the democratic element of the Kentucky legislature. The resolution deplored the attempted assassination of Gov. Goebel and tendered sympathy to his relatives and supporters.

Shooter Acquitted.

Louisville, Ky., Feb. 3.—Craig Ireland, who shot at Adams, colored, Tuesday, at his examining trial before County Judge Moore was acquitted.

KENTUCKY'S TWO CAPITALS.

Towns of London, a Republican stronghold, selected as meeting place of Legislature by Taylor.

ate a world of woe at almost any time.

The clash came when an officer of the circuit court of Franklin county was arrested by the military while attempting to serve notice of a legal proceeding upon Gov. Taylor. The next clash may come when the officers of that court attempt to enforce the rulings of its presiding judge. Behind this judge the democrats will have for the first time an active executive head in the person of Acting Gov. Beckham, and from the democratic standpoint regularly appointed adjutant general, whose orders the troops now encountered around the capital are bound to obey. If they decline obedience, the new adjutant general, the democrats claim, have the power the commonwealth's army of its own and proceed against all people who defy the authority of his office and that of the governor of the state, who he represents.

On the other hand, the republicans are fixed in their attitude that there is an insurrection in the state; that Beckham and his actions, as his adjutant general and his orders, are those of people acting in opposition to law. They believe that they alone are in the right, and, as there can be but one right and all else wrong, those who show resistance to the proclamations of Gov. Taylor are in rebellion against the commonwealth and they will resist any attempt of any kind to remove them from their position around the capital, meeting force with force, and that means civil war.

The first clash came when Alonzo Walker, a stenographer employed by the democratic attorneys, was taken under arrest in the capital grounds charged with conduct tending to incite mutiny and riot. The conduct consisted in planning for the removal of private office of Gov. Taylor a notice that the democratic attorneys would appear before Judge Cantrill, of the circuit court, and ask for an injunction restraining Gov. Taylor from all interference with the movements of the legislature and from his announced attempt to remove it to London in this state. Walker was at once taken into custody by orders of Col. Roger Williams, the commander in chief of the force now gathered around the capital.

An injunction will be asked and it is no doubt that it will be granted. Judge Cantrill has the reputation of being a man who will attempt by all means in his power to enforce the range handed down from his bench. He will most certainly use all the power in his hands to secure the operation of his injunction. It is equally

together from his left lung," said Dr. Williams. "Clotted blood has almost entirely clogged the right lung, which of course forms a natural bandage, and prevents further bleeding, but later will prove somewhat a source of danger. The clotted blood will decompose in about eight days, and then it may be necessary to remove a section of a rib in order to remove the decomposed blood. The wound will then be drained, and the danger will then be from secondary hemorrhage."

SECRET SESSION HELD.

Members of Both Houses of the Legislature Meet in the Hotel Parsons and Transact Some Business.

Frankfort, Ky., Feb. 3.—The democratic members of the legislature held a regular caucus at the hotel for the first time since the swearing in of Gov. Goebel. A secret session of the members of both houses was held in one of the parlors of the Capitol hotel, at which the election of William Goebel as governor and J. C. W. Beckham as lieutenant governor was reaffirmed, first in separate sessions of the house and senate and afterward in a joint session. Preceding this action the members of the senate elected as president pro tem, Senator Carter, who was nominated for that position at a previous caucus.

A committee of the members of the house, composed of Representatives Flinn, Lafayette and Cochran, was also appointed to draw up a set of resolutions showing the condition of affairs as they exist at the state capital, and covering thoroughly the democratic side of the controversy. These resolutions will be formally presented to the next session of the democratic members of the legislature, to be held Monday.

No further sessions will be held until Monday, adjournment being taken until that time and probably no further sessions will be held to hold sessions in the state house.

Taylor's Reward for Goebel's Assassination.

Frankfort, Ky., Feb. 3.—Gov. Taylor has personally offered a reward of \$500 for the arrest and conviction of the man who shot at Adams, colored, Tuesday, at his examining trial before County Judge Moore was acquitted. He will most certainly use all the power in his hands to secure the operation of his injunction. It is equally

FOUND A FORTRESS.

British Reconnoitering Party Blundered in Instructions and Met a Hidden Boer Maxin.

Lourenco Marques, Feb. 3.—The following, dated Gaborone, January 20, has been received here: "A Boer scout was captured yesterday by Col. Plummer's outposts and a small party was sent out to reconnoiter the hills. They discovered the wrong kopje and blundered upon the Boer fortress, armed with a maxin. Fortunately they managed to escape without casualties."

DROPPED WHILE SINGING.

Henderson Pierson Is Hanged at Clarksville, Tenn., in Presence of Five Thousand People.

Clarksville, Tenn., Feb. 3.—Henderson Pierson, colored, was hanged in a lot a quarter of a mile from town in the presence of 5,000 people. Pierson was a well-known singer, having been given the death penalty in two cases. He shot to death his wife and her mother because they refused to obey his commands. He was commanded them not to attend church.

Pierson prayed on the scaffold and made the usual statement of repentance. A song was sung, the condemned man joined in, and the trap was sprung while he was singing. His neck was broken.

United States Senator Selected.

Sacramento, Calif., Feb. 3.—Thomas R. Bard, of Ventura, was nominated United States senator by a ramp caucus composed of 54 republican members of the legislature. The followers of R. M. Burns, numbering 31, refused to go into caucus, as Bard's selection seemed certain.

Peace Treaty Will Be Ratified.

Washington, Feb. 3.—The senate in executive session took up the Hague peace treaty. There was a brief discussion of it, but no opposition was shown. The treaty was then ratified, but under the rules it had to lay over 24 hours after being read.

Good Prices for Cotton.

Monday's cotton market was a spot cotton is selling here for eight cents and there is great rejoicing. Farm mortgages of 20 years' standing are being paid off. The good prices of the staple, however, threaten prosperity. Over-production next year is predicted.

Turner Defeats Evans.

Washington, Feb. 3.—The house elections committee has decided unanimously in favor of Representative Oscar Turner, the sitting member in the contested Louisville (Ky.) election. The seat was contested by Adolph S. Hay starting for Pretoria.

Adolph S. Hay Starts for Pretoria.

Lourenco Marques, Delagoa Bay, Feb. 3.—Mr. Adolph S. Hay, the new United States consul at Pretoria, left here on his way to his post.

THERE WILL BE NO STRIKE.

The Miners and Operators at La Grange Agree on a Scale of Wages—It Was a Compromise.

Indianapolis, Ind., Feb. 3.—After a joint conference, lasting nearly two weeks, the delegates from the United Mine Workers of America and the Indiana State Operators' association finally adopted a scale which is a compromise between the first demand of the former and the first offer of the latter.

Section 1. That an advance of 14 cents per ton of 2,000 pounds for the black coal district of Ohio, and the basing district of Ohio, and the basing district of Indiana. That the basing district, the basing district of Illinois, shall be continued on an absolute run of nine basis and that an advance of nine cents per ton over present prices be paid on the district mine.

That the bituminous coal district of Indiana shall be 10 cents per ton, and all mine run coal loaded and shipped as such. All other coal mined in that district shall be passed over a regulation scale of Pennsylvania, this vein, and in the Hocking district, the basing district of Ohio, and the basing district of Illinois, shall be continued on an absolute run of nine basis and that an advance of nine cents per ton over present prices be paid on the district mine.

That the bituminous coal district of Indiana shall be 10 cents per ton, and all mine run coal loaded and shipped as such. All other coal mined in that district shall be passed over a regulation scale of Pennsylvania, this vein, and in the Hocking district, the basing district of Ohio, and the basing district of Illinois, shall be continued on an absolute run of nine basis and that an advance of nine cents per ton over present prices be paid on the district mine.

Section 2. That the screen hereby adopted for the state of Ohio, West Virginia and the bituminous district of Indiana shall be uniform in size, six feet wide by 12 feet long, built of No. 10 mesh wire, and the 50 cents per ton of 2,000 pounds for screen lump.

Section 3. That the screen hereby adopted for the state of Ohio, West Virginia and the bituminous district of Indiana shall be uniform in size, six feet wide by 12 feet long, built of No. 10 mesh wire, and the 50 cents per ton of 2,000 pounds for screen lump.

Section 4. That the block coal district of Indiana may continue upon the demand of the screen, the screen to be 72 feet, of uniform size, 14 inches between bars, free from obstructions, and that such screen shall be used. When coal is paid for on run-of-mine basis, the price shall be 10 cents per ton less than the pick mining rate when chain machines are used.

Section 5. That the differential between the thick and thin mines of the Pittsburgh district be referred to that district for settlement.

Section 6. That the price of machine mining in the bituminous district of Indiana shall be 18 cents per ton less than the pick mining rate for screen lump coal when punching machines are used, and 12 cents per ton less than pick mining rate when chain machines are used.

Section 7. That the differential between the thick and thin mines of the Pittsburgh district be referred to that district for settlement.

Section 8. That the differential between the thick and thin mines of the Pittsburgh district be referred to that district for settlement.

Section 9. That all narrow, day work and room-turned shall be paid a proportionate advance with the mining rate.

Section 10. That internal differentials in any of the states or districts, based on price of coal, shall be referred to the states or districts affected for adjustment.

Section 11. The above scale is based upon an eight-hour work day.
